

San Benito High School

Duane Morgan
Assistant Principal
Hollister, Ca. 95023
San Benito County

Dear Southern Conference Administrators;

The attached document outlining the tentative recommendation of the CCS Re-alignment Committee will effect the Southern Conference. If this recommendation is approved after the required due process has been followed, then the Tri County Athletic League will lose 2 schools.

This would mean that realignment would have to occur to help balance out the leagues. There also has been some concerns raised from some of our other southern conference member schools that are not satisfied with their current league placement and would like to change to another league.

The Southern Conference meeting that took place on September 7th, gave the athletic directors and administrators a task. They were asked to go back to their coaches and have them pencil in some possible league alignments from their perspective. The concept of developing a super league(s) was broached and now that the most northern schools may be out of the picture, a super league concept, with travel distance not being as much of a concern, may be an alternative.. This process should not be limited to the existing structure. Ideas should be discussed and formulated to develop a chance for the most level playing field for our athletes and programs.

As we work through this process I ask you to continue discussing re-alignment possibilities within the Athletic Directors' and the Board of Managers' meetings. These ideas will be shared with the sub committee that has been set up within the Southern Conference. Their recommendations and proposals will ultimately be shared at the next Southern Conference Meeting.

If you have any questions or concerns please feel free to contact me at San Benito High School.

Sincerely;

Duane Morgan
Southern Conference Chairperson
